

Perfect Supplements

Cordyceps is a mushroom-like fungus that has been used in Traditional Chinese Medicine (TCM) for over 1500 years. Research indicates that cordyceps has strong potential to increase energy, endurance, and strength. It is no wonder that cordyceps was named one of the best natural energy boosters by Alternative Medicine Magazine. In addition, cordyceps is an adaptogenic herb which means that it resists all types of stress on the body (physical, mental, and chemical) while promoting balance and optimal health.*
