

The box you are holding is manufactured with wind power and is made of 100% biodegradable material.

No trees were cut down
no water was polluted
in the manufacture of this box.

Less pollution is created during the manufacture of this box, plus the bottle inside, than to make one plastic bottle.

NO TREES WERE DESTROYED

NO WATER WAS CONTAMINATED

LESS POLLUTION CREATED

Vericell Testing

You may wonder how one multivitamin can offer so much support. Our **Realfood Organics Ultimate Daily Nutrition** has been clinically formulated using Vericell™ technology. Vericell™ testing is a clinical method that illustrates the effect that particular foods have on biological processes of the body. Certain blood markers (enzymes) and their activity have been identified as tools to monitor health benefits received from certain foods.

Enhanced Absorption

Because the nutrients in this multivitamin come from food and remain food, they are easier for our bodies to absorb and utilize. We have also included organic Aloe Vera (ACTIValue™) to help enhance absorption and to support digestive health.

A Partner for Calcium

Calcium is a large mineral and is often quite difficult to place at a therapeutic level in a multivitamin—particularly in a supplement sourced from real food. That's why **Realfood Organics Ultimate Daily Nutrition** also provides Calcium Fructoborate (FruiteX B®). This is a mineral complex naturally found in fruits and vegetables and has been clinically proven to increase Vitamin D3 levels, support bone strength, and increase energy levels.

Added Immune Support

This formula includes Glycoberry® 8, which is a complex of eight glyconutrients found in fruits and vegetables, and is required for our cells to communicate properly. If this communication fails, the immune system may fail to do its job. Glycoberry® 8 is added to adequately replenish the body's needs.**

Realfood Organics Ultimate Daily Nutrition is a unique new multivitamin made from over 50 raw, organic fruits and vegetables. In order to keep this real food as close to its natural state as possible, Country Life uses a proprietary process called Cryo-Active State™, which uses fermentation combined with freeze-drying with live probiotic cultures to ensure vital nutrients are retained. The tablets are packaged in an amber glass bottle to protect them from heat and light.

Our **Ultimate Daily Nutrition** multivitamin offers more than a vitamin and mineral formula. It also includes enzymes, phytonutrients, and glyconutrients that may:

- increase energy
- support bone strength
- support proper immune health
- support digestive health
- increase the activity of the body's internal antioxidant system
- support joint mobility**

In addition, **Realfood Organics Ultimate Daily Nutrition** offers two servings of fruits and vegetables to help you in your quest to eat five-10 servings each day.
