Hi-Tech's Garcinia Cambogia Extract 750mg capsule will help elevate your mood and help promote weight loss. Garcinia Cambogia extract is a fruit native to India. The active ingredient in the extract is hydroxycitrate (HCA). Hi-Tech utilizes the premium Garcinia on the market. Citrin K is a natural weight loss aid that has been demonstrated in pre-clinical and clinical studies and is a standardized extract from Garcinia Cambogia Extract enriched with potassium salt. Potassium improves penetration of HCA into the cytoplasm. The potassium salt of HCA is more available where it competes with citrate molecules for the enzymatic activity of ATP citrate lyase. Citrin K is patented for the induction of weight loss. Try Hi-Tech's Garcinia Cambogia and lose weight and feel great!
