

AMPLIFIED CREATINE 189™ AND ATHLETIC PERFORMANCE

In a second clinical study, only 2 tablets of Amplified Creatine 189™ containing 1.25 grams of creatine improved leg press and bench press performance just as well as 5 grams of regular creatine.** That's the power of 5 grams of creatine in only 2 easy-to-swallow tablets!^

IMPROVES LEG PRESS PERFORMANCE BY 54 POUNDS

^ In a randomized, double-blind clinical study of 57 healthy young adult males, subjects who took GNC Pro Performance® AMP Amplified Creatine 189™ containing only 1.25 grams creatine significantly improved leg press 1-RM performance by 54 lbs, while subjects on 5 grams of creatine monohydrate improved by 52 lbs, and the placebo group demonstrated no significant improvement.

Who should be taking Amplified Creatine 189™?

If you are ready to take your workouts to the next level, you should take GNC Pro Performance® AMP Amplified Creatine 189™. Only active, healthy adults that are looking for the technology that will increase their athletic performance should take Amplified Creatine 189™.

What type of exercise will Amplified Creatine 189™ help the most?

Amplified Creatine 189™ will help if you perform in the following activities:

- Weight training
- Plyometrics
- Resistance training
- Sprinting (running, swimming, or cycling)
- Stop-and-go sports (football, basketball, boxing, etc.)

What is Amplified Creatine 189™?

Looking for the champion of creatine? We've got it. Amplified Creatine 189™ is a cutting-edge solution that tops ordinary creatine monohydrate. In fact, it's proven to get into your muscles and improve strength more efficiently.* Don't just take any creatine. Tear it up with Amplified Creatine 189™.

The Amplified Creatine 189™ Evolution

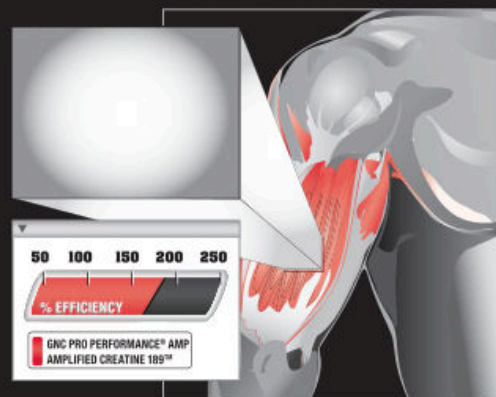

It all started with basic science. Everyone knows creatine works to improve athletic performance.* The question is - how did we AMPLify its effects...

PEG-Creatine System™ - This proprietary formula includes a patent-pending technology which allows you to get the same benefits as regular creatine monohydrate at a much lower dose! That's right, you no longer have to take mounds of powder or handfuls of creatine pills to get the performance enhancing benefits of creatine.

The Proof is in the Muscle

We tested it and have proof that Amplified Creatine 189™ gets into the muscle - even better than ordinary creatine! In a clinical study, Amplified Creatine 189™ resulted in 189% muscle creatine uptake relative to creatine monohydrate.* Users of Amplified Creatine 189™ take less creatine and get more into the muscle.*

FUEL YOUR CREATINE MUSCLE UPTAKE 189% MORE EFFICIENTLY*

* In a clinical study of 17 healthy young adults, muscle biopsy results revealed that GNC Pro Performance® AMP Amplified Creatine 189™ resulted in 189% greater muscle creatine uptake relative to benchmark amounts of ordinary creatine monohydrate powder.
