DIETARY SUPPLEMENT

Supports Digestive & Intestinal Health*

Nature's Bounty® Optimal Solutions® Controlled Delivery Probiotic takes advantage of today's nutritional scientific innovation with a targeted approach to digestive health.* We've combined our exceptional probiotics with Bio-tract® technology.

Bio-tract® technology is the process of enrobing our probiotics with a vegetarian gel-like substance that protects the ingredients from gastric acids. Bio-tract® technology allows the caplet to pass through the digestive tract, and release live organisms at targeted locations within the digestive system.
