Nrf2 Activator™, developed by Dr. David Perlmutter, is an exclusive formula designed to activate the Nrf2 genetic pathway. This pathway regulates the production of important molecules that impart antioxidant activity, such as glutathione and superoxide dismutase (SOD). It also regulates the production of detoxification enzymes, including glutathione S-transferase and downregulates signaling factors such as NF-κB. Each ingredient in this formula is backed by extensive research in peer-reviewed journals.*
