

Cellular Antioxidant and Immune Protection

Vitamin C is a critical component of your body's antioxidant defense network that protects cells and enhances immune function. It also helps maintain the health of eyes, teeth, and gums as well as bones, muscles, and blood vessels. Vitamin C is not manufactured or stored in the body and must be continually replenished through diet. The clinically proven delivery system used in all-natural Sustained Release Vita-C has been shown to maintain vitamin C levels over 12 hours.

Gluten free. No artificial flavors, sweeteners, colors, or preservatives added.

Bottle has printed seal under cap for your protection.
