ISOTROPIN[®] HGH-R was carefully designed to provide safe and effective means of naturally elevating one's HGH and IGF-1 levels. ISOTROPIN[®] HGH-R provides precursor nutrients to help boost the body's natural HGH levels - a key to supporting the anti-aging process. Human Growth Hormone (HGH) helps restore skin thickness, elasticity, smoothing out wrinkles and rejuvenating hair and nails. It promotes the burning of fat by making it available to the body as fuel while increasing muscle mass.*
