

Suggested Usage: Adults: Take 1 lozenge 1 to 4 times daily. Children (age 2 & up): Take 1 lozenge 1 to 5 times daily. Allow lozenge to dissolve slowly and completely in mouth and swallow. For children under 2, use only on the advice of a health practitioner.

Shelf Stable. After Opening Refrigerate to Extend Potency.

Among the most numerous beneficial bacteria in the mouth, *Streptococcus salivarius* is typically the first one acquired in infancy. BLIS K12® is a powerful strain of *S. salivarius* that, when taken regularly, colonizes the mouth and throat and helps to maintain the natural defense system of the main entry point of the body.* BLIS K12® has been clinically shown to support the maintenance of mouth, ear, nose, and throat health in children.*

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

Caution: Consult physician if pregnant/nursing, taking medication (especially immune-suppressing drugs), or have a medical condition (especially if immune system is compromised). Because some antibiotics may inactivate *S. salivarius*, take at least 2 hours before or after taking antibiotic medications. Keep out of reach of children. Contains Xylitol, do not feed to pets.
