The lymphatic system rids the body of cellular wastes, metabolic by-products, and foreign substances. It transports them to lymph nodes where they are reduced to harmless substances. This function is critical after the body has defended itself against a challenge. Getting rid of wastes allows the body to get back to health.

Lymphatonic™ speeds up the body's removal of wastes, promotes the healing process, and restores these tissues to health.* It improves ovarian, uterine, breast, or testicular lymph drainage when these tissues are congested.*

Use if you:

- Want full resolution of lingering health challenges*
- Wish to promote healthy lymph node and tonsil function*
- Need to heal abraded or irritated skin*

Suggested Use: Take one softgel with water three times a day.

Warning: Do not use in pregnancy.
