

To Help Maintain Normal Bodily Processes*

This formula contains GLA (gamma-linolenic acid), which our bodies use to form prostaglandins (potent, hormone-like substances that help the body to regulate many normal body processes*), as well as vitamin E, which helps protect arterial walls and supports the immune system by helping to maintain cell integrity. GLA is also helpful to women in maintaining well-being during the menstrual cycle.*

Gluten free. No artificial flavors, sweeteners, colors, or preservatives added.
