

Suggested Usage: Take 1 capsule at the beginning of each meal. **Do not take on an empty stomach. Do not take in case of stomach or duodenal ulcers.**

NOW® Betaine HCl with Pepsin is formulated with two very important elements of normal digestion: Hydrochloric Acid and Pepsin.* Hydrochloric Acid produces the appropriate acidic environment to further support the digestive process by creating the proper conditions for the absorption of nutrients in the intestine and the maintenance of a healthy balance of gut bacteria.* Pepsin is an enzyme that partially breaks down proteins in foods.* Thus, Hydrochloric Acid and Pepsin is a combination traditionally used to promote the release of nutrients from food and support normal digestion.*

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

Caution: For adults only. Consult physician if pregnant/nursing, taking medication, or have a medical condition (especially acid reflux). Keep out of reach of children.
