

**USAGE:** Take 1 capsule 1 to 2 times per day between meals or as directed by your qualified healthcare professional.

**NOTE:** If you have a medical condition, are pregnant, lactating, trying to conceive, under the age of 18, or taking medications, consult your healthcare professional before using this product.

**Jarrow Formulas® Colostrum Prime Life®** contains a minimum of 35% immunoglobulins, and is collected within 16 hours of calving from American, pasture-fed cows. The colostrum undergoes low-temperature processing along with testing to ensure that the different colostrum immunoglobulin fractions retain their biological activity and are not denatured.

Colostrum Prime Life® also contains **proline-rich polypeptides (PRPs)**, a special class of polypeptides shown to have immune-modulating and gastrointestinal health-promoting properties.\*

The lactoferrin contained in Colostrum Prime Life® is an important iron-binding glycoprotein found naturally in the body that supports immune function and promotes the growth of the good bacteria.\*

Colostrum Prime Life® is from cows raised without the use of growth hormone (rBGH), antibiotics or pesticides in their feed.

**Keep out of the reach of children.**
