

USAGE: Stir 1 scoop (6 grams) of Creatine Monohydrate into 20 ounces of water or fruit juice (Glucose, as found in certain fruit juices, enhances uptake and utilization of creatine monohydrate); for higher intakes, consult your qualified healthcare professional.

NOTE: If you have a medical condition (especially kidney or liver disorders), are pregnant, lactating, trying to conceive, under the age of 18, or taking medications, consult your healthcare professional before using this product.

Creatine is synthesized in the liver and stored in the major muscles, including cardiac and skeletal tissues. Once inside the muscle cells, creatine is phosphorylated to form **creatine phosphate** (CP), which, as a high energy substrate for the universal energy molecule adenosine triphosphate (ATP), assists in the contraction of the myofibrils (muscle fibers).* Creatine Phosphate is utilized to maintain higher levels of ATP during exercise.* Creatine Phosphate maximizes physical performance and reduces exercise fatigue by absorbing hydrogen ions released by muscles in the form of lactic acid.* Intense anaerobic exercise, such as weight lifting and sprinting, depletes ATP and greatly increases the demand for creatine.*

Creatine Monohydrate

Enhances Muscular Performance*
Suitable for Vegans • Purity Assured by HPLC

Keep out of the reach of children.

Supplement Facts		
Serving Size 1 Scoop (6 g)	Servings Per Container 100	
	Amount Per Serving	% DV
Creapure® Creatine Monohydrate	6 g	*
* Daily Value not established.		

One scoop of Creatine Monohydrate yields the equivalent of creatine found in 2.2 pounds (1 kg) of uncooked red meat. Creatine Monohydrate is the most economical, stable and best absorbed form of creatine. **Creapure® Creatine Monohydrate** is made in a GMP facility in Germany. **Quality Assurance:** Purity of product assured by High Pressure Liquid Chromatography (HPLC).

No wheat, no gluten, no soybeans, no dairy, no egg, no fish/shellfish, no peanuts/tree nuts.

Suitable for vegetarians/vegans.

Packaged by weight, not by volume.

Creapure® is a registered trademark of AlzChem AG, Germany.
