

Suggested Usage: Vigorously mix 1 level tablespoon daily into at least 12 oz. of water or juice and consume immediately. Be sure to drink plenty of additional fluids throughout the day. Start with smaller amounts and gradually increase over several weeks.

Surveys have shown that the fiber content of the American diet is typically about half of government recommended levels. Psyllium Husk Powder can be a convenient way to increase the intake of dietary fiber.* It has the ability to swell up to 50 times its initial volume when added to liquid. This bulking action can play an important role in maintaining regularity and gastrointestinal health.*
