CAPSULES

PROBIOTIC
SUPPLEMENT

5
BILLION
PER CAPSULE

**Saccharomyces
Boulardii+MOS**

USAGE: Take 1 capsule 1 or 2 times per day with water. Or take as directed by your qualified healthcare professional. May be taken with food or on an empty stomach. For immune compromised individuals and children, please consult your healthcare professional before taking this product.

Saccharomyces Boulardii+MOS is a probiotic yeast strain that survives passage through stomach acid and delivers its benefits to the intestinal tract.* This strain helps protect and maintain a normal intestinal microflora.* It also works to restore the normal intestinal microflora when possible disruptions may occur, such as, during the intake of certain medications and during travel.* MOS (MannanOligoSaccharides) is an oligosaccharide from the cell walls of *S. cerevisiae* that can discourage bacteria from adhering to the epithelial cells and reduce their proliferation.*

Saccharomyces Boulardii+MOS does not require refrigeration and can be stored at room temperature. Refrigeration will, however, extend the shelf life. Avoid temperatures above 77°F (25°C).

Supplement Facts

Serving Size 1 Capsule

Servings Per Container 30

	Amount Per Serving	% DV
<i>Saccharomyces boulardii</i> (a <i>S. cerevisiae</i> strain)	5 Billion Viable Cells†	*
Bio-MOS® [derived from <i>S. cerevisiae</i> , source of MOS (MannanOligoSaccharides)]	200 mg	*
