

- **STAMINA, STRENGTH, AND RECOVERY ARE ENHANCED!***
- **INCREASED MUSCLE PROTEIN SYNTHESIS!***
- **MUSCLE SPARING EFFECT!***

RECOMMENDED USE: AMINO RUSH™ BCAA 2:2:1™ is a very versatile product. Consume AMINO RUSH™ 2:2:1™ prior to a fasted workout, or during a workout or athletic event. AMINO RUSH™ 2:2:1™ can also be stacked with your favorite pre- and post-workout supplement, such as SHOTGUN® 5X™ or SYNTHESIZE®. Always drink 12 to 16 ounces of additional water with each AMINO RUSH™ 2:2:1™ drink.

BCAAs, which constitute links in a protein chain, are essential for a variety of functions, including increased muscle protein synthesis, decreased muscle soreness, and have a muscle-sparing effect on muscle tissue.¹ The 2:2:1 Leucine, Isoleucine, Valine Ratio is a **Patent Pending** Proprietary Blend of BCAAs. Many supplement companies went awol by increasing Leucine content in the BCAA profile. While their intentions were noble, their science was faulty. Consuming the Patent Pending 2:2:1 BCAA ratio in AMINO RUSH™ BCAA 2:2:1™ allows you to ignite the explosive muscle building power of not only mTOR, but also GLUT4!² It's the mTOR / GLUT4 Bio-Synergistic sizzle that's going to give you the locked and loaded SHOT-GUNS you need to kick ass on the field and in the gym!

Patent Pending:

- 2:2:1 Leucine, Isoleucine, Valine Ratio is a Patent Pending Proprietary Blend of BCAAs

Patent Pending:

- L-Leucyl-L-Isoleucine: Methods of use of Dipeptides and Tripeptides of Branched Chain Amino Acid Derivatives

PROTECT FROM HEAT, LIGHT AND MOISTURE. DO NOT PURCHASE IF SAFETY SEAL IS BROKEN OR MISSING. STORE AT 15°-25° C (59°-77° F)
Product contains heat and moisture sensitive materials which can cause clumping and settling. Shake well before opening.
