

UNCONDITIONALLY GUARANTEED

Cholesterol Health™ helps maintain healthy cholesterol levels already within the normal range.*

Clinical studies have shown that a dietary intake of at least 800 mg per day of plant sterols may help promote cardiovascular health and maintain healthy cholesterol levels already in the normal range. A daily serving of **Cholesterol Health™** provides 900 mg of plant sterols. Even vegetarians can have better cholesterol balance with Cholesterol Health.*

- Plant sterols help prevent the absorption of cholesterol from food*
- Limits the re-absorption of cholesterol produced by the body*

The blend of flax seed oil and plant sterols have different molecular weights and therefore separation in the softgel is normal. The appearance of the softgel is not a defect.

† Helps maintain healthy cholesterol levels already within the normal range.
