Reishi (*Ganoderma lucidum* (Leyss. ex Fr.) P. Karst.) is the source of the triterpenes called ganoderic acids (similar to steroid hormones), has highly active polysaccharides, and contains ergosterols, complete protein, unsaturated fatty acids, vitamins and minerals. This extract is standardized at 4% triterpenes and 10% polysaccharides.

Suggested Usage:

As a dietary supplement, adults take 1 to 4 capsules, 1 to 3 times daily between meals as desired, or as advised by your healthcare professional. Take 500 to 1000 mg. vitamin C each time to increase absorption. If digestive irritation occurs, take with meals.

Note: If pregnant or nursing consult your healthcare professional before using this product.

KEEP OUT OF REACH OF CHILDREN.

For optimal storage conditions, store in a cool, dry place.
(59°-77°F/15°-25°C) (35-65% relative humidity)
