Be ready to meet the challenges of the day,
every day, with **St. John's Wort 900™**.

Peace of Mind, Naturally

This special standardized St. John's wort (SJ-900™) provides 24-hour clinically studied levels of hypericin (0.3%) to promote positive mood and emotional health. **St. John's Wort 900™** improves concentration, mental resilience, and promotes healthy sleep.*

1 Tablet Daily = Greater Benefits

When people have to take more than one tablet a day, doses are frequently missed. Research shows they may take only 50% of the recommended amount. The once-daily dose of **St. John's Wort 900™** insures you get the level you need, in one tablet, to support your mood and emotional health for 24 hours.*

Results All Day & All Night

How does it work? The revolutionary tablet and concentrated, proprietary SJ-900™ extract makes it simple. Previously, you needed to take 300 mg of St. John's wort three times daily. But now, with this new special extract, you just take one tablet per day, and **St. John's Wort 900™** does the rest. You get the clinically studied levels you need, and never have to worry about missing a dose. It's the simple, natural way to feel like yourself again.*

SUPPLEMENT FACTS

Serving Size: 1 Tablet

Servings Per Container: 30

Amount Per 1 Tablet:	%DV
St. John's wort 900 mg	**
(Hypericum perforatum) Flower Extract (SJ-900™) standardized to contain 0.3% hypericin
