Dymatize utilizes only AjiPure®  
100% Pharmaceutical grade  
Glutamine, sourced from  
Ajinomoto AminoScience.

AjiPure® is a registered trademark of Ajinomoto AminoScience LLC.

**DIRECTIONS:** As a fast acting, easily digested Branch Chain Amino Acid dietary supplement, Mix 1 rounded teaspoon with your favorite liquid beverage, protein shake or meal replacement.

Consume 1-3 servings daily with or before each meal. For best results, use as part of a low-fat diet and exercise program and consume extra water whenever training.

**Dymatize 100% Pure Pharmaceutical Grade BCAA Complex 5050** is a maximum strength formula designed to provide a 5,050 mg complex of the purest free form amino acids L-Valine, L-Leucine and L-Isoleucine in every serving. These three protein-sparing amino acids are known as branched chain. The Branched Chain Amino Acids (BCAAs) got their name because of their unique branched chemical structure. All Branched Chain Amino Acids are essential amino acids, defined as, the body cannot make them from other compounds, they must be consumed in the diet. It is a well known fact that amino acids are responsible for protein synthesis, hence the nickname "building blocks." In recent times, these BCAAs have been investigated for their potential anticatabolic (preventing muscle breakdown) and anabolic (muscle building) effects. Investigative studies have shown BCAAs are an important component for effective muscle growth, muscle energy & recuperation.<sup>x</sup>
