Warning: Accidental overdose of iron-containing products is a leading cause of fatal poisoning in children under 6. Keep this product out of reach of children. In case of accidental overdose, call a doctor or poison control center immediately.

DIRECTIONS: For a delicious shake, mix 1 scoop **Elite Primal™** Protein with 7-10 oz. of cold water. Because of its unique protein structure, **Elite Primal** protein may foam after mixing.

Elite Primal is to be used as part of a balanced diet. **Elite Primal** is designed to be a protein supplement. Do not make **Elite Primal** your only source of protein. Do not exceed 2 servings of **Elite Primal** per day.

Elite Primal provides 24 grams of beef and other bovine proteins per serving. Beef protein has long been known to be one of the best protein sources in the world. **Dymatize** has captured the unique properties of beef in a delicious, convenient powder. Taken after training or throughout the day, **Elite Primal** will support muscle protein anabolism by delivering essential amino acids like L-Leucine and other amino acids that build muscle.* In addition, each serving delivers 3 grams of creatine, which is a critical source of energy during high-intensity efforts and also serves to hydrate and volumize muscle fibers.*

Elite Primal Protein is derived from specialized isolation processes which makes it ultra-concentrated. By removing the majority of the fats and cholesterol associated with beef, **Elite Primal** can really help you devour massive amounts of ultra-clean muscle nourishing protein. With a massive 24 grams of protein and 3 grams of creatine per serving, **Elite Primal** is the perfect addition to most diets and is especially suited for athletes looking for animal protein without milk proteins and lactose which can be problematic for some.

Elite Primal is the choice of elite athletes and serious trainers worldwide not only because of its quality and benefits but also because it tastes amazing!

Elite Primal is manufactured to the highest quality standards by **Dymatize** in our manufacturing facility. **Dymatize** products are used by athletes worldwide and are research proven at universities.
