Each serving is enzymatically predigested in the lab for improved absorption and bio-availability, provides over 4 grams of Glutamine and precursors, and 5+ grams of BCAAs. In addition, our Whey Protein is processed to prevent protein cross-linking.x

ELITE WHEY PROTEIN contains very high levels of Anti-Catabolic Branched Chain Amino Acids.x

These Branched Chain Amino Acids are an excellent source of Extra Muscle Fuel which may be depleted during intense training. These same Branch Chain Amino Acids are used to repair and help with the growth of cells. Branch Chain Amino Acids are utilized by muscle cells quickly after an intense workout and are an important part of an effective diet.x
