Dymatize M•P•S is designed to accelerate your fitness gains by both triggering muscle protein synthesis (anabolism) and minimizing muscle protein breakdown in response to training (catabolism) for faster recovery.* One scoop post workout is all you need.

- 7g of instantly soluble BCAAs (2:1:1 ratio) which provides enough L-Leucine to trigger muscle protein synthesis for faster muscle rebuild, recovery and growth*
- Added HICA & KIC (Leucine metabolites) further support muscle protein synthesis and help limit muscle protein breakdown caused by strenuous training*
- 2.4g of whey protein isolate supports muscle protein synthesis*

Great tasting and refreshing, M•P•S is the perfect muscle builder to take after your workouts.*

DIRECTIONS: As a dietary supplement, add one packet to 10 oz. of water. Mix/Shake until dissolved. Foaming may occur initially with agitation, but will subside.

Store in a cool, dry place. Keep out of reach of children.

Warning: Consult a physician before using this or any other product, if you are pregnant, lactating, or have any medical condition.
KEEP OUT OF REACH OF CHILDREN.
