Intestamine® provides significant amounts of L-glutamine, an amino acid that is important in maintaining normal structure and function of the gastro-intestinal tract; NutraFlora FOS, which selectively provides nourishment for beneficial intestinal bacteria; Acacia senegal, which is fermented into short chain fatty acids for the lower intestine; and N-Acetyl-D-Glucosamine, which is used as a structural component of intestinal mucous secretions. For best results, mix Intestamine® in cold or room-temperature water, non-acidic juice or other beverages and take between meals.†

†These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

Suggested Usage:

As a dietary supplement, adults take 1 scoop (approx. 6 grams) twice daily or as directed by your healthcare professional.

Warning: If you have an allergy to shellfish, (including crab and shrimp) you should not use this product.
