My passion for health grew significantly after my life as a world traveler led to persistent health issues. While searching the world for the perfect solution, I decided to research what I needed in order to gain optimal health. It was then that I formed a team of leading health professionals to create a product now known as Oxylent. Oxylent incorporates the most recent nutritional science to deliver a new generation of health supplements. A single effervescent packet of Oxylent dissolves quickly in water and provides an optimum blend of vital nutrients to assist in oxygenation, hydration, circulation, and rejuvenation.† It supports the body during stress, whether from air travel or a demanding lifestyle.† What was initially created for those who love to travel has become the ultimate nutritional supplement for life.

Lisa Lent
Founder, CEO

OXYGENATES: In the body, the enzyme SOD works to promote the conversion of hydrogen peroxide into beneficial oxygen and water, enhancing cellular oxygenation.†

HYDRATES: Important electrolytes control the balance of fluid in the body. They are also important for muscle and nerve function, hydration, movement of nutrients into the cells, and the removal of waste product from the cells.†

CIRCULATES: The amino acid L-Arginine promotes healthy blood flow, which promotes healthy circulation.†

REJUVENATES: A full range of B vitamins support adrenal health and immune and nervous systems. High-potency antioxidants vitamin C, selenium, and bioflavonoids are also included. 1000 I.U. natural vitamin D3 supports bone and heart health.†

† These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

THE OXYLENT DIFFERENCE

Great Tasting • Unique Formula • Superior Quality • Easily Absorbed • Third-Party Tested • Environmentally Conscious

PURE Nutrients — Non GMO · No Sugar · No Preservatives · No Additives · No Gluten · No Caffeine

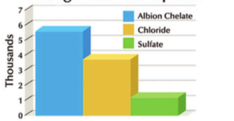
Unsurpassed antioxidant power with 20 IU of SOD, one of the most powerful antioxidants on the planet. Our SOD is sourced from a proprietary variety of Non-GMO melon that is naturally bred to increase SOD content. The melon juice is concentrated, freeze-dried and micro-encapsulated to ensure bioavailability.

Multiple Award-Winning Formulas

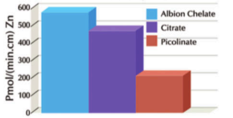
SCIENCE-BACKED INGREDIENTS

Albion's mineral chelates offer better absorption than common minerals. Oxylent delivers everything you want in a multivitamin. Choose Oxylent because you care about what you put into your body—*and so do we.*

Manganese Absorption



Zinc Absorption



Albion® Human Nutrition is the most established and globally recognized leader in the chelate industry. Albion is the first bis-glycinate chelate manufacturer to be approved by EFSA, European Food Safety Authority.
