Dymatize Super Amino 6000 is a proprietary high-quality, complete time-spectrum protein and amino acid complex which includes superfat and fast-acting whey protein isolate and whey protein concentrate combined with slow acting casein. **Super Amino 6000** delivers a strategic battery of free form amino acids which include 2:1:1 BCAAs (L-Leucine, L-Isoleucine, L-Valine), L-Arginine and L-Glutamine. **Super Amino 6000** is the most complete, strategic protein and amino acid supplement available.^x

Amino Acids are the building blocks of muscle protein and are essential to help create and maintain positive nitrogen balance, which is important for new muscle growth.^x In addition, the BCAA L-Leucine plays a direct role in turning on the processes that build protein in muscle fibers.^x Amino acids also play a key role in supporting maximal muscle growth in response to training.^x

Dymatize Super Amino 6000 was designed to be one of the most potent protein and amino acid products available on the market, providing you with 6 grams of high-quality, complete time-spectrum protein and amino acids when two servings are consumed daily. **Super Amino 6000** will help you achieve your training goals.^x
