

Based on a study of mean serum CoQ10 values during supplementation of 120 mg of CoQ10 with and without 5 mg of BioPerine®.

The increase in the area under the serum CoQ10 curve was 30% while the absolute change in serum CoQ10 values was 32%. This data indicates that BioPerine® may be administered safely and effectively with CoQ10 to deliver this important compound to the body in a more predictable way.
