

Suggested Usage: Take 1 capsule daily, preferably on an empty stomach.

Glutathione is a small peptide molecule composed of three amino acids: cysteine, glutamic acid, and glycine. It is produced by every cell of the body, with especially high levels in the liver.* Glutathione is critical for healthy immune system function and is necessary for proper detoxification processes.* It also plays a critical role in the body's defense system against oxidative stress by directly neutralizing free radicals, as well as by maintaining the activity of vitamins C and E.* Milk Thistle Extract and Alpha Lipoic Acid are included as complementary ingredients.

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

CAPSULE SIZE
