

AminoSculpt® is a medically used, enzymatically hydrolyzed liquid collagen. Supplementing with collagen protein is important in any anti-aging, weight loss, or wellness program.

As we age, our body's ability to produce and maintain collagen diminishes. As collagen is one of the most important structural proteins in the human body, we see and feel the effects of its loss as wrinkles form, skin sags, hair dulls, nails become brittle, joints stiffen and our bodies lose muscle tone. Daily supplementation with enzymatically hydrolyzed[†] collagen can help promote a more youthful feeling body and appearance.

Hydrolyzed collagen protein has been used to support:

- Weight loss programs*
- Lean muscle*
- Energy*
- Tissue and skin repair*
- Joint function and cartilage*
- Skin, hair and nail appearance*

AUTHENTICITY GUARANTEE

AminoSculpt contains the original **CollaPure™** formula used by over 4,700 health professionals, including doctors, surgeons, and nutritionists. It has been recommended for over 15 years in the anti-aging weight loss book, *How to Completely Reshape Your Body!*

DIRECTIONS: Take 1 Tablespoon (15 mL / ½ Fl Oz) at bedtime with 8 ounces of water (preferably on an empty stomach 2-3 hours after eating). If you have eaten, still take AminoSculpt. An additional serving can be taken at bedtime, or during the day for increased results. Best results are experienced when AminoSculpt is taken for 90 days (although most users notice certain benefits within a few weeks).

[†] **NOTICE:** AminoSculpt is made from natural ingredients and enzymes (NOT acids like other collagens), so its color, taste and thickness may vary slightly.

CAUTION: Not to be used as a sole source of nutrition. Not for use on very low-calorie protein diets (below 400 calories per day) without medical supervision. As with any supplement, infants, children and pregnant or nursing mothers should consult with their physician before using.

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

AminoSculpt®

Anti-Aging Liquid Collagen

Supports More Youthful:
