

Calamega DHA+™ is a triple strength Omega-3 supplement from fresh calamari (squid) with naturally high levels of body-ready DHA, and Vitamin D3. Diets rich in seafood have higher levels of DHA than EPA (about 2:1). Unlike most fish oil supplements, calamari has this same natural ratio. Research supports DHA as the superior "body-ready" Omega-3 as it's found in a wider range of critical tissues than EPA (like the brain, heart and red blood cells). For significant doses of DHA, Calamega DHA+ is the next best thing to eating seafood.

Calamega DHA+'s molecular distillation manufacturing process creates the purest Omega-3 supplement available. Every batch exceeds domestic (US) and international standards, and is third-party-tested for over 400 contaminants including: heavy metals, PCBs, dioxins and pesticides. Plus, Calamega DHA+ has a great lemon flavor and doesn't cause unwanted "fishy burps" or aftertastes.

Ingredients in Calamega DHA+ are shown to support:

- Healthy cholesterol within normal levels*
- Healthy blood pressure within normal levels*
- Healthy mood and cognition*
- Healthy bones and joints*
- Healthy eyes*

DIRECTIONS: Take two softgels daily with food, or as directed by your health care professional.

CAUTION: KEEP OUT OF THE REACH OF CHILDREN. As with any supplement, if you are pregnant or nursing consult with a health care professional before use.
