

AminoSculpt® is the original anti-aging collagen peptide supplement. It is the only Type 1 Collagen backed by over 30 years of medical use and clinical research and is the first liquid collagen with NO sodium benzoate or potassium sorbate.

Around age 30, your body's ability to produce collagen diminishes. You feel and see the effects of this collagen deficiency every day in the mirror. As you age, wrinkles form, skin dries, hair thins and dulls, nails become brittle, joints stiffen, and your body loses its muscle tone and shape. Aging is collagen loss.

But AminoSculpt can help. 90% of your body's collagen is Type 1 – and every serving of AminoSculpt provides you with a highly concentrated dose of pure, rapidly absorbable, dipeptides and tripeptides from Type 1 Collagen. The amino acids in these peptides are precisely what your body needs to build and maintain healthy collagen, so you can look and feel younger than ever.

TYPE 1 COLLAGEN PEPTIDES SUPPORT:

- **Weight loss by maintaining lean muscle, which boosts your metabolism, and aiding safety***
- **Fuller hair, smoother and firmer skin, and stronger nails***
- **Healthy joints and cartilage***
- **Enhanced recovery and tissue repair***
- **Better sleep***

DIRECTIONS: Take 2 Tablespoons (1 bottle/1 Fl Oz/30 mL) daily at bedtime, with or without water. For optimal weight loss and sleep benefits, take AminoSculpt on an empty stomach.

CAUTION: KEEP OUT OF THE REACH OF CHILDREN. As with any supplement, infants, children and pregnant or nursing mothers should consult with their health care provider before using. Not to be used as a sole source of nutrition.
