

BCAA (Branched Chain Amino Acids) is a 3:1:1 blend that enhances muscular growth and strength while maximizing athletic performance. L-Leucine is the most critical BCAA because it stimulates muscle growth while the other amino acids work together to help you boost repair, maximize recovery, and build more muscle. Alpha Ketoglutarate has been added to optimize absorption of the BCAA.

To maximize performance and muscle growth we recommend taking BCAA Pre & Post workout so your muscles are supported & replenished with BCAA. Research shows that individuals with higher BCAA intake have lower rates of obesity, lower body weight, and better body composition.*

OLYMPIAN LABS, INC. products are made with the highest quality ingredients and manufactured according to current Good Manufacturing Practices (cGMP).

CAUTION: If you are pregnant or nursing, have a medical condition, or are taking medication, consult your healthcare professional before using this or any other nutritional supplement. Discontinue use if allergic reaction occurs.
