1 Based on one published single arm study with 15 healthy exercise-trained men who were fasting and at rest. All subjects were told they would receive either the dietary supplement or a placebo but all received the dietary supplement. Results after 60, 80, and 100 minutes were compared to baseline. Allman RJ, et al. Nutrition and Metabolic Insights 2011;4 55-63

2 Based on one published single arm study with 18 healthy active men and women. All subjects were told they would receive either the dietary supplement or a placebo but all received the dietary supplement. Results after 28 days were compared to baseline using the Pittsburgh Sleep Quality Index.
