

Our unique Leucoselect® Grape Seed Extract formula provides powerful antioxidant protection through polyphenol compounds called proanthocyanidins (OPC's). Leucoselect® alone has undergone clinical research showing protection to the cardiovascular system. An additional source of polyphenols comes from green tea extract, providing concentrated amounts of total catechins and epigallocatechin gallate (EGCG), with well-documented health benefits. Finally, bioflavonoids from lemon complete this unique and powerful antioxidant formula, which can promote cardiovascular, skin, and capillary health.[†]
