

CoEnzyme Q10 (also known as ubiquinone) is found in the mitochondria of every cell and in high concentrations in heart tissue. It helps maintain cardiovascular health and energy production.†

CoEnzyme Q10 is a fat-soluble nutrient and therefore is best taken when combined with a small amount of fat. To overcome this, we've added oil to our CoEnzyme Q10 softgels. Our CoEnzyme Q10 contains no artificial emulsifiers, therefore you may notice a normal separation which does not affect potency.
