

Milk Thistle seed's unique group of flavonoids called "silymarins" help preserve normal metabolic activity of the liver and support its regenerative processes. Milk Thistle is particularly helpful to the body in combating the harmful effects of pollution.†

This herbal supplement contains standardized Milk Thistle (*Silybum marianum*) extract powder from the highest grade whole seeds.

The Ultimate Extract® process makes our Milk Thistle easier to digest and more available than plain herb powder, creating a premium Milk Thistle supplement.

Due to variations in nature, the natural color of this product may be slightly different with each batch; however, the quality specifications remain the same.
