

Ginger has a long history of use in promoting healthy digestion, as well as aiding in nausea and morning sickness. It has also been shown to support healthy joints. Our 100% lactovegetarian **Ultimate Ginger Complex®** contains both ginger extract and whole ginger to provide a full-spectrum botanical with all the traditional benefits of ginger. Our formula also contains a special enzyme called cellulase for easier digestion, which allows for optimal absorption of naturally occurring nutrients in ginger. Rosemary extract is added to provide natural antioxidant protection. Carnosic acid is a constituent of rosemary that provides the antioxidant activity.†
