

Buffered Vitamin C Powder

Buffered Vitamin C contains high-purity ascorbic acid buffered with carbonates of potassium, calcium, and magnesium. Although the elaborate process of producing cassava root source vitamin C has one step that involves the use of corn-derived alcohol, this formula is generally well tolerated by corn allergic individuals.

Suggested Use

As a dietary supplement, 1 heaping teaspoon or more in 8 to 12 ounces of liquid, between meals, or as directed by a healthcare practitioner. Two teaspoons supply approximately the recommended dietary allowance of calcium and magnesium.

Appropriate for most food-sensitive individuals.

Developed by Stephen A. Levine, Ph.D.

Buffered Vitamin C Powder

Cassava Root source

dietary supplement
HYPOALLERGENIC
300 grams (10.6 oz)

Supplement Facts		
Serving Size	1 Teaspoon (4.7 g)	
Servings Per Container	63
