

Pure Kidz Super Fuel

Directions: As a dietary supplement, take one scoop daily. Mix one scoop with 12 oz. of water and stir.

When you exercise, electrolytes are lost in your sweat, predominantly sodium and potassium. These electrolytes must be replenished to keep electrolyte concentrations in your body constant. Pure Kidz Super Fuel is a delicious effervescent drink mix which can help replenish electrolytes lost during physical activity. With a balanced ratio of simple and complex carbohydrates, Super Fuel is also ideal for pre and post physical activities.
