

CONTAINS NO artificial colors, flavors or preservatives; no wheat, gluten, eggs, peanuts, tree nuts, crustacean shellfish or fish.

- Cold Processed and Microfiltered
- Branched Chain Amino Acids and L-Glutamine

Our whey protein is sourced from milk produced in the United States from cows not treated with rBGH (recombinant bovine growth hormone).

Whey protein supports the body's ability to maintain, increase, and repair muscle. It also provides micro-proteins such as B-lactoglobulin, A-lactalbumin, immunoglobulin, glycomacropeptide, and lactoferrin, which are important for immune system function.¹

Whey surpasses even whole eggs in its ability to deposit nitrogen in the muscle. Our **Show Me The Whey®** has highly bioavailable undenatured proteins and branched chain amino acids (BCAAs), making it ideal to promote muscle repair, maintenance, and growth. The free-form amino acid glutamine has been added to further support muscle health.²

Our proprietary process uses only natural enzymes and high-quality membrane filters to separate the whey and preserve essential nutrients. This state-of-the-art processing using low temperatures creates a complete spectrum of whey peptides, improving nitrogen retention, supporting immune system health, and providing antioxidant protection. Whey supports cellular glutathione levels, one of nature's important antioxidants.³

Typical Amino Acid Profile Per Serving:

Alanine	1,150 mg	Lysine ²	2,093 mg
Arginine	568 mg	Methionine ²	560 mg
Aspartic Acid	2,325 mg	Phenylalanine ²	743 mg
Cysteine	587 mg	Proline	1,710 mg
Glutamic Acid	3,729 mg	Serine	931 mg
Glycine	393 mg	Threonine ²	1,238 mg
Histidine	417 mg	Tryptophan ²	459 mg
Isoleucine ²	1,332 mg	Tyrosine	787 mg
Leucine ²	2,597 mg	Valine ²	1,222 mg
• Branched Chain Amino Acid		□ Essential Amino Acid	

Each serving fortified with an additional 75 mg L-glutamine.
