

^Power Hit 2x – Because Quitting Isn't An Option

Olympian Labs E-FORCE Pre-Workout uses Encapsulated Technology to make it possible for Sustained Released ingredients to hit you with the power you need, TWICE. The clock starts once you drink E-FORCE. The FIRST HIT explodes in approx. 20 minutes; the SECOND HIT reignites you in an additional 20 minutes.

Pre-Workout Comparison

E-FORCE Sustained Release Pattern compared to other Pre-Workouts~

— E-FORCE Sustained Release Pre-Workout — Other Pre-Workout

~this chart is a generalized representation of the release pattern of the sustained released ingredients in Olympian Labs E-FORCE Pre-Workout versus other pre-workout formulas without the same technology.

Conquer Your Personal Records

E-FORCE sustained release provides constant performance to help you handle your intense training from start to finish. Equipped with enhanced ingredients to help delay muscle fatigue so you don't have to quit.*

Pure Performance

Olympian Labs E-FORCE Pre-Workout does it all without fillers, without artificial flavors, without artificial sweeteners or allergens, giving you only what's pure. Because you deserve pure performance sports nutrition.

What's your game today? We're ready to play.

GRAMS / 30 SERVINGS • DIETARY SUPPLEMENT

Pre-Workout

Daily

SUGGESTED USE: As a dietary supplement, mix 1 scoop of E-FORCE Pre-Workout in 8 to 10 ounces of water and drink 20-30 minutes before training. Always begin use with 1/2 scoop to assess your tolerance. DO NOT EXCEED 2 SCOOPS PER DAY. During your workout, it is recommended that you drink plenty of water. Some individuals may experience a harmless tingling sensation, which is attributed to beta alanine. To avoid sleeplessness, do not consume within 4 hours of bedtime.

NOTE: Some of the ingredients have been encapsulated for sustained release, and will not immediately dissolve when added to liquid. This is intentional; drink entire serving immediately after mixing to maximize the sustained release effect during training. Floating powder may be visible.

CAUTION: Check with a qualified healthcare professional before taking this product. Do not use if you are sensitive to caffeine, pregnant or nursing a baby, under 18 years of age, have any known or suspected medical conditions, and/or if you are taking any medications. E-FORCE Pre-Workout contains stimulants (Energized Thermogenic Matrix), the equivalent of approximately 3 cups of coffee. Avoid using with any other products that are considered to be stimulants. Too many stimulants may cause nervousness, irritability, sleeplessness, and, occasionally, rapid heartbeat.

Supplement Facts

Serving Size: One (1) Scoop (17.5 g)

Servings Per Container: 30
