

Saccharomyces boulardii

A probiotic, non-colonizing yeast species closely related to Brewer's yeast and not related to the yeast group to which Candida belongs. *Saccharomyces boulardii* is a transitory microorganism and is eliminated after supplementation is stopped.*

Suggested Use

As a dietary supplement, 1 to 3 capsules three times daily, preferably on an empty stomach, or as directed by a healthcare practitioner.

This nutrient is of the highest quality and purity obtainable, and does not contain preservatives, diluents, or artificial additives.

Variations in product color may occur.
