EPD Basic MultiVitamin

EPD (Enzyme Potentiated Desensitization) is a comprehensive health program, developed by Dr. Leonard McEwen. The nutritional supplementation aspect of the EPD program requires that the vitamins and minerals be taken separately and in these ratios to avoid competition for uptake.* (See also Item #71110 EPD Trace Minerals).

Suggested Use

As a dietary supplement, 2 capsules daily with meals (may be taken together), or as directed by a healthcare practitioner.

Do not exceed recommended intake.

Variations in product color may occur. Keep in a cool, dry place, tightly capped.

*This statement has not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.
