

Buffered Vitamin C

Cassava Source

Buffered Vitamin C Capsules contains high-purity ascorbic acid buffered with carbonates of calcium and magnesium. Developed by Stephen A. Levine, Ph.D. Although the elaborate process of producing cassava root source vitamin C has one step that involves the use of corn-derived alcohol, this formula is generally well tolerated by corn allergic individuals.*

Suggested Use

As a dietary supplement, 2 capsules two or three times daily between meals, or as directed by a healthcare practitioner. Keep in a cool, dry place, tightly capped. Appropriate for most food-sensitive individuals.
