

PRP Cytokines

Colostrum Messenger Molecules

PRP Cytokines is an extract from bovine colostrum, and contains a multitude of colostrum fractions, especially proline-rich-peptides. It does not contain the larger milk proteins, and only about 3% lactose. Every batch of PRP Cytokines is tested to be free of antibiotics, bacteria, heavy metals, and other contaminants.

Suggested Use

As a dietary supplement, 4 sprays orally and swallow, one or two times daily, or as directed by a healthcare practitioner.

Refrigerate after opening.
