Easy and accurate dosing with included dropper. Baby DHA can be easily added to baby formula or food.

Essential for Baby's Development

As the structural component of retina and brain tissue, DHA is especially important for infant's proper brain and eye development in the first two years of life.*

Ultra-Pure Fish Oil

Sourced from small freshwater Arctic cod. The fish oil is molecularly distilled to meet the strictest international standards for purity and freshness.

All-in-one Formula with Vitamin D3

Formulated with Vitamin D3 to support healthy bone and teeth development.*

Baby DHA is NON-GMO & FREE of:

Gluten, soy, yeast, wheat, gelatin, dairy, eggs, shellfish, peanuts, tree nuts, sweeteners, artificial flavors and synthetic preservatives.

BABY DHA

1050 mg Omega-3 per serving with Vitamin D3

Omega-3 DHA from small Arctic cod supports infant brain and eye development*
Natural Triglyceride Form

Dietary Supplement
2 fl oz (60 mL)

- ☒ Brain development*
- ☒ Eye development*
- ☒ Nervous system development*

Suggested use for infants:

Body Weight	Dose
5-10 lb	1.0 mL
11-20 lb	2.0 mL
21-25 lb	3.0 mL
26-30 lb	4.0 mL
31-35 lb	5.0 mL

Use 1-5 mL once daily according to body weight, or as directed by your pediatrician. Can be administered directly or mixed with food or liquids.

Keep out of reach of children. Protect from heat, light and moisture. Store at 15-25°C (59-77°F). Refrigerate after opening. Best if used within 3 months after opening.

Tested and certified by a third-party laboratory for quality, purity and potency.
