Specializing in the finest
Norwegian fish oils since 1982

Medical Scientists Internationally are encouraging people to eat more fish. Fish body oil is a major source of the polyunsaturated Omega-3s EPA and DHA.

For those individuals who do not eat an oily fish diet, Carlson offers Omega-3s in easy-to-swallow soft gelatin capsules. Carlson Super Omega-3 Gems® soft gels contain 1000 mg (1 gram) of a special concentrate of fish body oils from deep, cold water fish.
