Three Forms of Iodine for Optimum Support

Are you getting the iodine you need from diet alone? Iodine consumption has dropped 50% in the last 30 years. This "missing mineral" is critical for multiple reasons and reliable food sources can be difficult to find. Research has shown you need different forms of iodine to target different health systems.

Tri-Iodine™ provides **three beneficial forms of iodine** to nourish multiple body systems: a blend of potassium iodide, sodium iodide, and molecular iodine. Three forms of iodine provide a wider spectrum of benefits:

- **Potassium iodide** and **sodium iodide** for hormone balance and immune health*†
- **Molecular iodine** for breast, prostate, colon, and cellular health*

You Can't Live Without Iodine

Every cell in your body requires iodine to keep it functioning properly. But each day, you are exposed to the iodine blockers: chlorine, bromide from bromated baked goods and soft drinks, and fluoride in tap water, just to name a few.

Tri-Iodine™ can help. It supplies the crucial support you need for:

- **Breast, Uterine, Prostate and Colon Health**
- **Hormone Balance and Menopause Relief†**
- **Detoxification of Environmental Stressors**
- **Cellular Defense Throughout the Body***
