

Since 1972

Immune System Support

These specially-processed Vitamin C tablets contain coated beadlets that allow for a continuous, slow release of Vitamin C over an extended period of time. This time-release technology allows for improved bioavailability, minimal urinary excretory loss, and more stable levels of Vitamin C in blood serum.

RECOMMENDATION

Take one tablet daily with a meal.

This bottle was sealed for your protection. Do not use if inner seal is missing or damaged. Nature's Sunshine uses natural source materials in its products that are subject to color variation.
